EARTH:

SEEN FROM THE

HEART

Presented by THE SMITHSONIAN

with
Isabella Costin Pringle

Earth is a complex, interconnected system of life and environment. This film explores the intricate relationships between the natural world and human society, highlighting the impact of our actions on the planet. Through the lens of a young girl, we see the world from a fresh perspective, one that is both awe-inspiring and humbling. The film is a beautiful blend of nature and science, offering a unique and powerful message about our place in the world.
