Your Committee submits the following recommendation:

Moved by D. Coronado, seconded by R. Tamr,

**WHEREAS** the Ojibway Prairie Complex is our most iconic green space in the city, and one of the most biodiverse areas in all of Canada as well as a hotspot for Species At Risk; and

**WHEREAS** despite the importance of the area and excellent stewardship by the City and its employees, the Complex is still under threat from roadways as a result of habitat fragmentation and road mortality; and

**WHEREAS** evidenced by the report in 2016 by local expert Jonathan Choquette of a one-day kill tally of 91 dead snakes around the Ojibway Complex and LaSalle woodlot;

**THEREFORE BE IT RESOLVED** that City Council **BE REQUESTED** to consider initiating an environmental assessment to explore solutions to species crossings on Matchette Road,

And further, that City Council **BE REQUESTED** to consider approving a pilot project to test the effectiveness of a seasonal road closure of Matchette Road between Titcombe Road and Sprucewood Road in May and June and in September and October of 2017 to coincide with turtle nesting and snake migration periods.

Carried.

Councillor Francis voting nay.
